

Trex®

Case Study

Scope

Kelly-Fradet supplied the materials to Taylor Atkinson and the team from Maple Leaf Carpentry to build this custom deck in East Longmeadow, MA. This deck features Trex Transcend decking in Havana Gold and Spiced Rum. The railing is the Trex Rod Rail in Charcoal black and Platinum. Maple Leaf Carpentry also added Trex lighting for a little extra flair!

Products Used

- Trex Transcend decking in Havana Gold and Spiced Rum
- Trex Rod Rail in Charcoal black and Platinum

"Trex has had a long reputation as being the leader in the composite deck market. Customers come to me for Trex because it's durable, time tested, and its low maintenance over the life of the product. Kelly-Fradet is one of the only spots to shop! I think the biggest thing is the customer service. The actual knowledge of the product ... they give you that bigger picture that you can get from anywhere else."
